

BALMAIN

PARIS

DoubleHair “The greatest innovation since extensions”

Balmain presents a unique invention that enables you, as a hairdresser, to apply 18 extensions at once in 5 minutes! A complete volume treatment or lengthening in only 35 minutes! Not only do you save time but because DoubleHair is re-usable, you will increase the frequency of client visits whilst making it affordable for your client.

DoubleHair is made of two connected strips of high quality 100% human hair. The attachment is hidden in the middle of these two strips. When the bondings are attached, the hair is flipped back, which makes the attachment points invisible between the hairs. With this simple technique the hairdresser can work 60% faster and more efficiently compared to regular hair extension systems. Within 35 minutes, volume or length can easily be created. DoubleHair is easy to apply and remove and can be re-used 2 to 3 times! Well-maintained DoubleHair can last up to 8 months.

DoubleHair comes in a beautiful treatment pack. A treatment contains 5 DoubleHair strips and 10 finishing extension (1 treatment equals 100 hair extensions). Perfect for a volume or basic lengthening treatment.

DoubleHair is made of high quality human hair and has a natural straight structure, which makes it perfect for blending with the client's natural hair to create even more volume. There are 9 beautiful colors available, including the 3 non-colored levels that can be colored any color your client may desire.
